## STOP

- Non-Ecological Cutlery
- Non-Ecological Straws
- Circumventing Legislation

## WPC cutlery

Bypasses the law

- 🙄 Looks ecological, but it's NOT
- 😡 Offered as washable
- 😭 Practically no one washes
- 🤢 Contains petroleum plastic
- 🤮 Releases microplastics
- 😡 Decomposition time like plastic
- 😞 Non-compostable
- 😞 Non-recyclable

## Wooden cutlery

- 🤮 Unpleasant aftertaste
- 😡 Poor functionality
- 😞 Spoon straightens in the soup
- 😞 Knife dulls quickly
- 😞 Non-ecological
- 😞 Production from healthy trees
- 😞 Dangerous spikes | chips
- 😞 Water use in production

## PLA | CPLA cutlery

Bypasses the law

- 😡 Offered as washable
- 😞 Practically no one washes
- 🤮 Releases microplastics
- 😞 Industrially compostable only
- 😡 Low temperature resistance (PLA)
- 😞 Higher price

## "Washable" plastic cutlery

Bypasses the law

- 😡 Offered as washable
- 😞 Practically no one washes
- 🤮 Contains petroleum plastic
- 🤮 Releases microplastics
- 😞 Non-ecological
- 😞 Non-compostable
- 😡 More plastic for washability

## Refork cutlery

- 😊 Recyclable
- 😮 Fully biodegradable in nature
- 😮 Compostable anywhere
- 😍 Does not leave microplastics
- 😎 Made locally (CZ)
- 😮 Made from waste
- 😊 Great user features
- 😊 No aftertaste
- 👍 High temperature resistance
- ⭐ Variety of sizes and hues

## Paper straws

- Unpleasant aftertaste
- Poor functionality
- Dissolves in the drink
- Glue contains microplastics
- Contains chemical dyes
- Production from healthy trees
- Water use in production
- Non-recyclable

## Bamboo straws

Bypasses the law

- Offered as washable
- Practically no one washes
- Contains petroleum substances
- Releases microplastics
- Industrially compostable only
- Material imported from Taiwan
- May contain toxic substances

## PLA straws

Bypasses the law

- Offered as washable
- Practically no one washes
- Releases microplastics
- Industrially compostable only
- Low temperature resistance
- Higher price

## "Washable" plastic straws

Bypasses the law

- Offered as washable
- Practically no one washes
- Contains petroleum plastic
- Releases microplastics
- Non-ecological
- Non-compostable
- More plastic for washability

Yellow bin doesn't solve the problem

## About Refork: Our Story and Mission

At Refork, we believe that we have a responsibility to protect our planet and contribute to environmental conservation. That's why we've set out to offer sustainable and eco-friendly alternatives to single-use plastics.

Our journey began with a vision to create a better future for ourselves and future generations. We wanted to change the way people think about and use disposable plastic products, so we started creating a range of straws, cutlery, made from natural and biodegradable materials.
