ELGO[™]
SAVING WATER SINCE 1906
www.elgo-irrigation.com

We are presenting a new Kitchen Garden watering kits range especially designed for Hobby Gardeners.

This range provides the solution that many end users are looking for.

The simple, easy to install, pre-assembled systems enable you to grow your own vegetable and fruit garden with exciting benefits:

1. Water saving
2. High yield from even a small garden
3. Saving money by growing your own food
4. Enjoying eating your own grown food

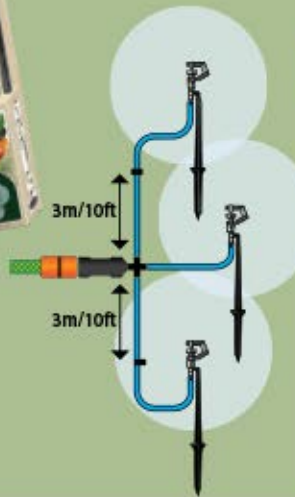

Elgo's unique product range based on the most advanced Micro Irrigation innovations is created using the highest quality materials.

All our products/kits come pre-assembled, enabling each hobby gardener to assemble and use the Kitchen Garden Watering Kits in just a few minutes.
